TEACHING

SCIENCE
USING THE FOSS CURRICULUM

FOSS®

Science and ELA Integration

Come see all the curated and created resources to use FOSS to teach your ELA standards. In this two hour workshop we will look at how to align the science, reading, and writing standards in a way that makes sense for your classroom. We have many great resources, including science aligned informational texts and writing protocols for all grade levels! Participants will receive 2 relicensure hours for attendance.

Tuesday, August 8 – ASB – PDC Room 103
8:30 AM – 10:30 AM JPLS – Course #117595

FOSS for New Teachers

New to FOSS or new to Jordan? Come see all that FOSS has to offer your science classroom! FOSS and the district science specialists have so many resources to help make FOSS easy to implement. In this 2 hour class we will experience a lesson, discover how to make planning efficient, see how to organize the kit supplies, and explore the online FOSS tools. Participants will receive 2 relicensure hours for attendance.

Tuesday, August 8 – PDC 103
8:30 – 10:30 AM – JPLS – Course #127695

Thursday, August 10 – PDC 103
12:00–2:00 PM – JPLS – Course #101936

FOSS Bootcamp

Join us for a FOSS Bootcamp to help you start off the year with confidence. In this 2 hour class we will address some of the FOSS challenges, explore the more difficult pieces of the curriculum and explore all the resources the district has available to help make jumping into teaching FOSS less daunting. Participants will have time to explore their grade level manuals and ask questions with support from district specialists. Participants will receive 2 relicensure hours for attendance.

Tuesday, August 8 – ASB – Room PDC 103
12:30 – 2:30 PM – JPLS – Course #127696

Thursday, August 10 – ASB – Room PDC 103
9:00 – 11:00 AM – JPLS – Course #101936
